

Declaration of conformity according to directives 2004/108/EG (EMC) and 2006/95/EC (LVD)

Wiesemann & Theis GmbH hereby confirms that the product

Com-Server Highspeed OEM

Model 58431

fulfills the requirements of the directives / regulations specified below:

1. Emission according to

EN 55022 Kl. B (2006) + A1
EN 61000-3-2 (2006)
EN 61000-3-3 (1995) + A1,A2

2. Noise Immunity according to EN 61000-6-2 (2005):

EN 61000-4-3 /2006 + A1 Radiated Immunity
EN 61000-4-4 /2005 Burst
EN 61000-4-5 /2007 Surge
EN 61000-4-6 /2007 Conducted Immunity
EN 61000-4-8 /2000 + A1 H-Field

3. Product-specific Low-Voltage Directive for communications technology

With a supply voltage of 5V DC (SELV), the above device does not fall under the application area of the Low Voltage Directive.

Since the above article is designed as a plug-in card, ESD immunity and positive response to voltage interruptions must be ensured by the construction of the overall system.
