

Data sheet:

Programming service

The illustration shows a stick figure sitting at a desk with a computer monitor and keyboard. Three blue callout boxes are connected to the figure: 'Knoten' (Nodes) is connected to the top right, 'Widgets' is connected to the middle right, and 'Auftragsklärung' (Order clarification) is connected to the bottom left.

Product overview

Commission flows and nodes for your project

The rule.box with Node-RED is the switching and control center for your IoT project.

Whether individual expansion nodes for non-supported devices and protocols, automation flows or your own visualization widgets: Our development department supports you wherever you run into problems in implementing your project using the rule.box and Node-RED.
