Freely selectable serial interface

W&T interface modules equip devices having only a serial TTL interface with almost any desired standard interface type. In addition the modules allow you to adapt the interface types of many W&T devices over a wide range. The modification is done by simply replacing the standard interface modules with modules of the desired interface type.

Properties

Interfaces:

- **1 x serial standard interface**
 - 9-pin SUB-D connector
- **1 x TTL interface**
 - 12-pin male header with 2mm spacing

Management and connectivity:

- **Tiny plug-in interfaces**
- **Interface**
 - RS485/RS422

Standards & more

- **Conforms to standards both in office and industrial environments:**
 - High noise resistance for industrial environments
 - Low noise emission for residential and business areas
- **5 year guarantee**

Wish for something!

Technical data

Connections and displays:

TTL plug adapter:	Terminal strip, 2mm spacing
Serial port:	9-pin SUB-D adapter
Operating modes:	RS422 RS485 2/4 wire with handshake control RS485 2/4 wire with automatic control
Switching time:	approx. 10µs for switching from data send to receive for RS485 automatic control (can be changed on request)
Transfer rate:	max. 10MBaud
Signals:	RxD,TxD,CTS,DTR
Termination:	Connectable termination network
Power supply:	5V, 40mA (typ.)

Dimensions and other data

Dimensions:	45 x 32 x 14mm (L x W x H)
Enclosure rating:	IP00
Weight:	approx. 15g
