# Orientation

## A guide through the Golang universe

pure.box

Product overview

To introduction video

For an introduction to the world of Go you will find here a few selected links and recommendations.

### Quick start

#### Tour of Go

If you already know other languages, this tour will teach you the essential features of Go in a very short time.

#### Effective Go

After the quick start Effective Go explains how you write understandable and idiomatic Go code.

#### Go Concurrency Patterns

In this talk Rob Pike explains draft samples for concurrent programming with Go.

#### Go Slices: usage and internals

This contribution from the Go blog sheds more light on slices, arrays and handling them.

### Deepening

#### Go Language Specification

Language specification is the exact and detailed language description.

#### Advanced Go Concurrency Patterns

In-depth draft samples for concurrent programming

### Useful information

#### Awesome Go

A moderated list of useful Go community libraries

#### Go + Hardware

A moderated list of Go community libraries for embedded programming

#### Golang Weekly

Weekly newsletter with current trends and developments from the Go world
