## Protecting machines and equipment - without changing the IP setup

Segmenting network and isolating of sensitive network areas is one of the basic measures in virtually any IP security concept for protecting industrial environments. With the Microwall Bridge this can be done IP-transparently while the network configuration including routing of all involved components remains unchanged. Whitelist-based and using simple and intuitive filtering rules on the TCP/UDP/IP level only the explicitly desired communication between the island and the surrounding network is enabled. The protocol-transparent operation makes the Microwall Bridge especially suitable for post-segmenting of already existing network environments.

More info: Learn more about how the Microwall Bridge works compared with router solutionshere.

Properties Technical data Accessories

# **Properties:**

# Interfaces:

- 2x Ethernet 100/1000BaseT
  - · Autosensing and Auto-MDIX
- · High data throughput
  - Gigabit Ethernet
  - max. 900MBit/s
  - Low latency times thanks to powerful hardware platform

#### Connectivity:

- · Implementation as bridge
  - No intervention in the routing concept of the network
  - No intervention in the IP configuration of the associated devices
- Consistent whitelist-based firewall concept
  - Filter rules based on IPv4 addresses and TCP/UDP port numbers
- Logging
  - · Identification of undesired communication attempts

#### Management & Security:

- Secure firmware concept with Secure Boot
  - $\bullet\,$  No uploading of manipulated firmware or third-party firmware
- · Configuration via HTTPS-Only Mode
  - · Supports individual certificates
  - · Fast startup using WuTility or DHCP
  - · Required password without default login
- · Port management for all local services
  - All service/management services can be configured/deactivated
- · Network management systems

#### Supply Voltage

- · External power
  - Screw terminals, 24V-48V DC
- Power-over-Ethernet (PoE)

#### Standards & more

- Conforms to standards both in office and industrial environments:
  - High noise resistance per EN 61000-6-2
  - Low noise emission per EN 55032:2015 + A1 Cl. B, EN 61000-3-2 & EN 61000-3-3
- 5 year guarantee

Your suggestions for improvement and additions

#### **Technical data:**

#### Connections and displays:

Network: 2x 100/1000BaseT Autosensing/Auto-MDIX

RJ45

IPv6 on request

Data throughput: max. 900MBit/s

Galvanic isolation: Network connections min. 1500 V

Supply voltage: Power-over-Ethernet (PoE) or
DC 24V .. 48V (+/-10%) and

Supply connection: Plug-in screw terminal, 5.08mm spacing

Labeled "L+" and "M"

Current consumption: PoE Class 2 (3.84 W to 6.49 W)

or for external supply: typ. 150mA @24V DC max. 200mA @24VDC

Indicators: 2x LEDs for network status

1x LED for Error

## Housing and other data:

Supplementary network products

Housing: Plastic compact housing for top-hat rail mount

105x22x75mm (LxWxH)

Enclosure rating: IP20

Weight: approx. 120g

Ambient temperature: Storage: -40..+85°C

Operating 0..+50°C (no stack mounting)

 $Permissible \ relative \ humidity: \quad 5..95\% \ RH, \ non-condensing$ 

Scope of delivery: 1x Microwall Bridge

1x Quick Guide

Accessories		et unit price for mmercial users
Power supplies		
Plug-in power supply, 24V / 500mA DC with Euro plug	11021	21.00€ 📜
Plug-in Power Supply, 24V / 750mA DC with Euro, US and UK plug	11026	38.00€ 📜
Power supply for DIN rail, 24V / 630mA DC (merchandise, 2-year manufacturer's guarantee)	11080	33.00€ 📜
Mechanical Accessories		
Wall mount housing, enclosure rating IP66 / IP67	11120	54.00€ 📜
Mounting bracket for wall mounting	58812	11.20€ 📜
19" DIN rail	58813	21.00€ 📜
