

Current tools:

WuTility - Management and Inventorying Tool

Active search for Web-IO products and Com-Servers in the local subnet and display of all relevant information at a single glance. Quick assignment of network-side basic parameters, copying of whole configuration blocks, uploading of firmware updates and direct Telnet access are just some of the additional functions.

Date	Changes and comments	Revisions
January 6, 2023	<ul style="list-style-type: none"> Command line call revised 	4.81 EXE download (approx. 4.7 MB)
May 23, 2022	<ul style="list-style-type: none"> List-based password confirmation for mass updates improved 	4.78 EXE download (approx. 4.7 MB)
May 18, 2022	<ul style="list-style-type: none"> Timeout for firmware update extended Call from the command line revised 	4.77 EXE download (approx. 4.7 MB)
February 2, 2022	<ul style="list-style-type: none"> Improved detection/display of installed security software in the Info dialog 	4.76 EXE download (approx. 4.6 MB)
November 16, 2021	<ul style="list-style-type: none"> Error in handling of the MAC address for mass update fixed 	4.75 EXE download (approx. 4.6 MB)
July 7, 2021	<ul style="list-style-type: none"> Notes regarding any limited listing of security software added. Network setup via BootP: Limited password length eliminated Error in compatibility checking within mass updates eliminated 	4.74 EXE download (approx. 4.6 MB)
March 19, 2021	<ul style="list-style-type: none"> IP addresses visible in the dialog for the inventorying method Error with firmware assistant fixed Installation packet no longer includes PuttyTel 	4.71 EXE download (approx. 5.2 MB)
November 24, 2020	<ul style="list-style-type: none"> Inventorying problem with newer devices fixed Timeout problem with up-/downloading configuration files fixed 	4.70 EXE download (approx. 5.2 MB)
July 1, 2020	<ul style="list-style-type: none"> Support for new W&T devices The IP address can be optionally applied when performing Config upload 	4.68 EXE download (approx. 5.2 MB)
May 12, 2020	<ul style="list-style-type: none"> Support for new W&T devices Improvements in update catalog 	4.66 EXE download (approx. 5.2 MB)
January 9, 2019	<ul style="list-style-type: none"> Support for new W&T devices 	4.56 EXE download (approx. 5.1 MB)
November 28, 2018	<ul style="list-style-type: none"> Support for new W&T devices Various detail optimizations for Config up/download and inventorying 	4.52 EXE approx. 5.1 MB [on request]

Date	Changes and comments	Revisions
September 22, 2017	<ul style="list-style-type: none"> • Support for Web-IO 4.0 #57734 added 	4.50 EXE approx. 4.5 MB [on request]
November 15, 2016	<ul style="list-style-type: none"> • Support for Web-IO 4.0 added 	4.42 EXE approx. 4.5 MB [on request]
December 11, 2015	<ul style="list-style-type: none"> • Supports configuration upload/download in JSON format (for current Web Thermometer) • Error in selecting the inventorying method fixed • Update activation error fixed • Inventorying revised • New setup packet as *.exe 	4.30 EXE approx. 4.5 MB [on request]
July 10, 2014	<ul style="list-style-type: none"> • Adjustable timing for scan address range • Expanded info about security products • Optimized inventorying function for multiple-networked PCs • New setup packet as *.exe 	4.20 EXE approx. 2.58 MB [on request]
July 17, 2013	<ul style="list-style-type: none"> • New W&T device hardware implemented • Update problem for devices with set password fixed • Detection of installed security software optimized • Copying of configuration data between devices optimized • MSI installation revised and optimized 	4.13 ZIP approx. 1.59 MB [on request]
April 27, 2012	<ul style="list-style-type: none"> • Detection flags for new device hardware added 	4.04 ZIP approx. 1.44 MB [on request]
February 2, 2012	<ul style="list-style-type: none"> • Now possible to assign DNS addresses for new device generation • Support for devices with multiple network interfaces 	4.03 ZIP approx. 1.44 MB [on request]
May 5, 2011	<ul style="list-style-type: none"> • Temporary checking and saving of device information related to new device generation expanded 	3.87 ZIP approx. 1.44 MB [on request]
February 11, 2011	<ul style="list-style-type: none"> • Possibility of device registration added 	3.85 ZIP approx. 1.44 MB [on request]
