Wiesemann & Theis

# What to know about us
## W&T connects serial, Ethernet, USB, PCI and IO

The company Wiesemann & Theis was founded in 1979 in Wuppertal and currently employs 50 people.

### Development

We develop our own products. This enables us for example to expertly address any problem that may occur in terms of the interoperability that we strive for.

### Production

We not only develop our own products, we also manufacture them ourselves so that they are continuously monitored and improved. The results speak for themselves: more than 99.9% quality and

### Sales

A large inventory of finished and raw parts ensures that short delivery times are the rule even during the occasional semiconductor shortages.

### Support

We document product characteristics as clearly and completely as possible; and we answer your questions without delay. We also are concerned with extreme long-term availability of our products. In our 40-year history we have never had to phase out a single product.

### Engineering Firms

W&T works with a country-wide network of engineering firms. These firms work closely together with you to develop and implement on-site solutions for your problems.
